Big Boy No. 4014 - Steam Locomotive

The Union Pacific Big Boy 4014 Steam Engine traveled through Erie on June 10th in honor of the 250th anniversary of our country.

This awesome photo is from a friend of our own Vickie Pangratz...Vic Wheeler. His son, Vic, Jr., was the Engineer operating the CSX red-engine train below as Big Boy passed above!

We are fortunate to have SSJ employee, **Alec Durfee**, share his passion for all things rail on **Monday, June 22 at 1:15 pm.**

Stop by and join the Sisters in the Gathering Space!
